Legislative Motes

Crossfiling. Governor Brown's crossfiling repealer (AB 118-Munnell) cleared the Assembly this week by a vote of 49 to 29 after a hot debate on an amendment to prohibit pre-primary endorsements by party organizations. The amendment failed by only one vote. On the Senate side, President Pro Tem Hugh M. Burns has announced that he and others in the upper house will carry on the battle to eliminate pre-primary endorsements. It looks like a rough road ahead.

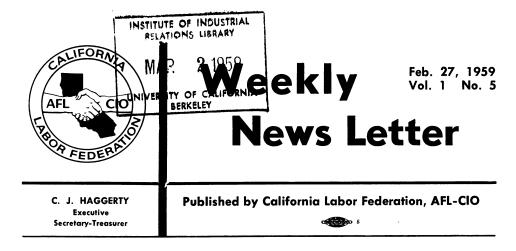

Installment Buying Controls. Legislation to protect installment buyers from exorbitant charges and other abuses has received unanimous approval from the Assembly Committee on Finance and Insurance and is presently waiting floor action in the lower house. The measure, AB 500 (Unruh), is the result of extensive interim committee study.

Labor Legislative Program. Federation sponsored measures are beginning to appear on file for committee hearing. (See page 2 of Newsletter). Each Newsletter carries bill settings two weeks in advance. Affiliates are urged to read the hearing announcements carefully for measures in which they are interested.

Letters to Legislators. They are important, especially when written by a constituent. In the future, as important measures come up, the Federation will urge the communication of views by union members to their lawmakers. Right now, it is urgent that legislators be informed of grass-roots opposition to the consumer tax bills AB 1171 (beer tax increase) and AB 1172 (cigarette and tobacco taxes). The impact of these new consumer levies is almost entirely on the low and middle income groups. They add up to a sizeable wage cut by indirection.

HOUSING STARTS DECREASE BUT TOP JANUARY 1958

WASHINGTON, D.C. — Nonfarm housing starts declined 5 percent in January to 86,000 units, but this total was 27 percent above the January 1958 figure and was close to the 1955 record for January, according to preliminary estimates of the U.S. Labor Department's Bureau of Labor Statistics. The decrease from December was all in privately owned units begun with Government in sured or guaranteed mortgages.

MINIMUM WAGE LAW FOR ALL POINTED UP BY STRIKING FARM WORKERS

With rates of pay as low as 30 cents an hour for grown men in some instances the urgent need for strong minimum wage laws which include agricultural workers is more clearly indicated than ever by the current strike of field workers in Imperial Valley according to spokesmen for the workers in that area.

The strike by members of United Packinghouse Workers Union, Local No. 78, is now in its fifth week and is in support of the union's demand for payment of packing shed rates on carrot packaging machines in the fields. The union claims

machines in the fields. The union claims machines are actually "a packing shed without a roof."

FAIR EMPLOYMENT BILL PASSES ASSEMBLY

The Fair Employment Practices bill (AB 91) passed the Assembly by a vote of 65-14 without amendment last week, and it is now in the Senate Rules Committee awaiting assignment as is SB 477 (Richards) the companion bill in the Senate.

While the bill sailed handily through the Assembly unamended, it is not expected to meet such smooth going in the Senate. Already there has been offered amendments which would exclude agricultural workers, weaken the Commission either by reducing its number or its budget. Attempts will undoubtedly be made to negotiate proposed amendments to such form as to make the final bill acceptable and assure its final passage. In passing the Assembly all members voted "Aye" except the following who cast "No" votes:

Bradley, Burke, Chapel, Collier, Conrad, Cusanovich, Hegland, Lanterman, Levering, Lowrey, Luckel, Reagan, Shell, and Thelin.

Assemblyman Walter Dahl was absent during the roll call vote but remarked later for the record that had he been present he would have also voted NO.

KENNEDY, MORSE, ROOSEVELT JOIN ON MINIMUM WAGES

A Federal minimum wage of \$1.25 an hour and the extension of wage-hour protection to more than seven million workers now excluded are the objectives of companion bills which (Continued on Page 2)

Prior to the walkout of the field workers on January 29, the union had secured a ruling from Edward F. Hayes, Farm Placement Chief of the Department of Employment, that contract nationals from Mexico could not be used on this job. Such workers were employed on the machine in the Salinas area last fall but, according to Hayes, this was not authorized employment. The union has since requested U. S. Secretary of Labor Mitchell to disqualify Bud, Inc. from using Mexican nationals in any of its operations.

The strike, which began as a spontaneous walkout, is the first agricultural field strike in Imperial Valley in 20 years.

In a statement International Representative Clive Knowles said of the strike: "This strike has brought to light the fact that hundreds of domestic agricultural workers in Imperial Valley are systematically discriminated against so far as opportunities for employment are concerned.

"Rates of pay as low as 30 cents an hour for grown men are not uncommon in the carrot fields.

"While contract nationals from Mexico are employed by the thousands in this county, domestic workers who are referred by the California Farm Placement Service to the Imperial Valley Growers Association are consistently given the hardest work in the fields where braceros are employed and otherwise discriminated against so as to discourage them from seeking further employment in the fields."

MINIMUM WAGE BILLS

(Continued)

have been introduced in both Houses of Congress by Senator John F. Kennedy (D-Mass.), Senator Wayne Morse (D-Oreg.) and Representative James Roosevelt (D-Calif.).

Inclusion of the additional workers under the bill would be achieved in three ways.

First, the bill would wipe out the 1949 amendment to the Fair Labor Standards Act which eliminated processes and occupations "necessary to the production" of goods. Under the amendment only "producers" and operations "closely related" and "directly essential" to production are covered by the law.

Second, the bill will cover seven new types of enterprises by adopting standards of coverage which are applied by the National Labor Relations Board in deciding whether it has jurisdiction.

Third, the proposed bill removes or modifies the exemption now specifically granted by the law to twelve types of enterprises.

Guide On Wage Exemptions For Seafood Industries Issued

The U.S. Labor Department has issued an interpretative bulletin on Federal wage-hour law exemptions for fisheries and seafood industries.

The publication is intended to serve as a practical guide to employers and employees.

Clarence T. Lundquist, Wage-Hour Administrator, said that copies of the bulletin will be available soon. They may be obtained by writing to the Wage and Hour and Public Contracts Divisions, U.S. Labor Department, Washington 25, D.C., or from regional offices located in various cities throughout the country.
